Tsawang tamnag	2:48- 5:50	The two words, services and learning are seems to be independent but when they are brought together, it brings valuable of learning through services.
Jigme namgay	6:27- 6:50	Services learning are a process of learning by doing, similar kind of prototype. Both the people gets benefit, it could be facilators and audience.
Tshering Tamang	7:20-9:50	Summer training helps in cooperating, collaborating, social learning strategy, comes with different issues and challenges and towards it. It also helps in planning process in any activities. The important things in my life is awaking circle which denotes of knowing everyone and staying each other better.

Jamyang	10:30-11:10	Relationship and partner ships with members of parliament thinking that our voice could be reached in decision making.

		and gained more experience and skills.
--	--	--

Tandin Wangmo	14:35-15:10	All the activities that we did are more effective through collaborative, better communication and cooperation.
Jigme zangmo	15:18-16:40	The interesting is doing debate and conversation which I was fully involved and everyone is listening to me. I feel that we are engaged not only with YI members but also with other youth group and being youth, we know what other youth feels and can in the same way of solving the issue. Through each other views can lead to effective conversation within youth
Tshering	16:48-19:20	Visiting national assembly through which youth gained more knowledge on how the national assembly works and how does it look like and in what ways they are managed?
Tenzin lhaden	19: 22-21:40	Round table is the most important in the discussion where everyone is involved which helps in building their confidence where I improved drastically without panic. Ideas about procedure when we are visiting national assembly such as registration process.
Tsawang	21:40-23:10	Active participate during debate where physical involvement from everyone and brainstorming is more effective.
Sonam Wangchuk	23:25-23:53	Building of confidence in individual and it's good to see the youth being involved in the respective local action, coming with the challenges and issues related to it and raise their voice in the discussion.

### Communication strategy

Structure: doing away the position of president and speaker? Or we appoint focal person rather than president and speaker?

Phuntso namgay	36:43-38:40	The role of president and speaker should be there as at the beginning there is no incentive in maintaining hierarchy but when we say the name president and speaker,
----------------	-------------	--

		they are not in the position too, so whatever youth are contributing in YI, these two people are contributing extra responsibilities. When we elected at the beginning, it means that they are capable, able to lead. All of us cannot attain at the certain point, so at that point this two person represent
Tandin Wangmo	38:53-40:20	When we say quality, the title should be removed and can be replaced with other name like overall representative.
Phuntso choden	40:25-41:42	When you all say president to me, I feel that I have a extra responsibilities and burden in youth initiatives.
Tsawang jamtso	41:50-43:20	It's good to have a president and speaker because they are the who coordinate so without them the depending comes in existence thinking that someone will do but no one will do it.
Ngawang	55:00-01:1:00	Since the title sounds hierarchy in YI but it serves as a incentive them to be initiative and can be done if they don't do their roles and responsibilities than they are chances of changing.

What do you expect from the members who are focal person?

Tenzin lhaden	1:3:51-1:4:10	Since am not that good at management and expect guide from the members
Sonam Wangchuk	1:4: 15-1:4:45	I know everyone one will do well and best like punctual.
Tandin wangmo	1:4:47-	Help me as much as they can when I am in need and be responsible to make on time and local action to be happen soon and serious on the issue that we come up during the public

		sitting.

### Commitment

Jigme zangmo	00:06-00:20	Whenever we call them they accept it but when it comes to reality, they never turn up. So those who came, I am happy to see.
Tandin wangmo	00:23-00:35	I think those who came are much more serious about the youth initiatives
Phuntso choden	00:37-	Thos who come in the summer training are enthusiastic members and more commitment towards the youth initiatives.

Jigme namgay	01:20- 2:10	Doing away with the public discussion and with the panel discussion, we should be confident that we did something before coming in front of media so, it's important that we not only talk but also walk on talk.
Phuntso namgay	2:11-3:45	While doing panel discussion, we can recommend on what we did for the past days and what we are going to take action based on issues. it is important to identify different people in their respective field where they have abilities and skills. Through identify the capable of individual than only we will have the panel discussion.
Phub dorji	3:50-	Rather than doing a panel discussion, if we do round table discussion than it will be effective. We don't have rely on bbs rather YouTube and social net working.

What issues should we include in the discussion?/representation
